16.89J / ESD.352J Space Systems Engineering
Spring 2007

16.89J Assignment 3

Prepare a 30-50 page document and 25-30 slide presentation for the SRR. Suggested sections:

1. Lunar Telescope Literature Search & Discussion

2. Stakeholder Analysis

3. Needs and Goals (Level 0 Requirements)

4. Initial Concepts - Define the Tradespace that will be explored

5. Plans for PDR, specifically how will you explore the concept space and downselect/rank the concepts?

This is a collective assignment for the entire 16.89/ESD.352 class. 4-5 Students should present at the SRR.
