

15.060 Data, Models, and Decisions
Homework 7
Due: MONDAY, November 24, 2014

1. Exercise 9.3, parts (a) and (b).
2. Solve the optimization problem described in “National Basketball Dream Team” on pages 476-478 of the textbook. Answer questions (a) and (b). You do NOT need to answer question (c). The spreadsheet for this question is provided.
3. Read the case International Industries, Inc. at the end of Chapter 9, and be prepared to discuss the case in class on Monday. You do NOT need to build or solve the model for the case.
